

If you do not have health insurance coverage:

We accept cash, personal check, money order, VISA®/MasterCard®/Discover®/American Express® and CareCreditSM payments. The provider visit fee does not include X-ray, lab, or injections.

Below are some of our fees for our lab, radiology and other ancillary services which may be recommended by your provider during the office visit. This allows you to know in advance what the discounted fee is regarding additional services and to decide when meeting with your provider whether or not you want those services.

Patients who are unable to meet their payment expectations as outlined above may contact our Customer Service Department to make other arrangements. If you do not have health insurance or have a large insurance deductible, please be aware that the following services are not included in your office visit:

- X-ray • Laboratory • Injections

Visit Fees for Primary Care Physician:

New Patient	\$137-\$179	Established Patient	\$119
--------------------	--------------------	----------------------------	--------------

Visit Fees for Specialists:

New Patient	\$230	Established Patient	\$190
--------------------	--------------	----------------------------	--------------

The charges for some of the services not included are as follows:
